EXPERIENCE

State Department of Education of Mato Grosso do Sul (SED/MS)

Program Director & Lead Educational Tech Architect *Brazil*

- Spearheaded and executed the historic first Google for Education program at the state level, titled "Development of Teaching Knowledge and Skills Mediated by Google for Education at Severino Ramos de Queiroz State School."
- Designed, managed, and scaled the technological training framework to equip professional educators with digital competency, modern pedagogy tools, and cloud-integrated curriculum.
- Simultaneously conducted advanced doctoral research, bridging academic theory with large-scale public school systemic deployment.

Educational Institutions (Brazil)
Senior Educator & Curriculum Specialist

- Delivered 20+ years of high-impact instruction focusing on Portuguese language, advanced creative writing, and classical literature.
- Spearheaded the integration of emerging technologies, multiliteracies frameworks, and AI applications into daily curriculum, increasing student tech literacy.
- Provided intensive behavioral, academic, and professional mentoring to high school-aged students, guiding them through identity development and college readiness paths.

University Fellowship Program (Brazil)
Lead Teacher Trainer & Academic Partner

- Awarded a prestigious, highly competitive full scholarship based on academic excellence and leadership capability.
- Formed a strategic partnership with university leadership to design, oversee, and execute a comprehensive training framework for student-teachers.
- Directly coached and evaluated prospective educators on pedagogical techniques, classroom management, and compassionate curriculum assembly.
